

I live in a small town and we get only 1 (one ) radio station clearly XM radio gives me the option of listening to more and with a greater selection. When I am in other counties i still turn on the am-fm radio when the stations come in, The NAB should leave XM radio alone and we the VOTING public that pay for their services! It is my choice what I choose to listen to. We still live in a free country and I am truly tired of someone trying not only to take away my freedoms, but trying to shove their ideas down my throat, this can not take place.
